AMBIENT					
One		Pair	Black Ash, White Ash, Walnut	Ambient One is moderate size two-way reflex loaded stand mounter. One goes lower with lowest notes that you can imagine by just looking its size. It is tuned with low Q and together with perfect chosen dampening material it reaches tight, fast and low bass notes.	1450 €
Two		Pair	Black Ash, White Ash, Walnut	Ambient Two is 2.5 half way reflex loaded floorstander. Its lower midrange bass actually works lowest notes with upper midrange/woofer but is filtered off above 140 Hz. So that makes speaker more directive in upper bass, low middle and middle frequencies.	1990 €
Three		Pair	Black Ash, White Ash, Walnut	Ambinet Three is real three way reflex loaded design that produces really deep, focused, dynamic bass from its two 6.5 inch paper coned woofers. Mids and highs follow same design as its smaller sisters and is perfect all round speaker for relative sized rooms 20-40 m ² for 2 channel audio and also multi channel systems.	-
